Institutional Review Board Industry Funded Study Fee Schedule

This fee schedule is effective for all IRB reviews of industry funded research completed by the IRB on or after 4/1/2022.

REVIEW TYPE	FEE
Initial Review - Full Board	\$3500
Initial Review – Expedited	\$3000
Continuing Review	\$1750
Amendment/Modification	\$1000
Continuing Review & Modification Combined	\$2450
Exempt Determination Review	\$400
Administrative Review of External IRB Initial Submission	\$1200

These fees apply only to industry sponsored research submitted for review to the Ascension IRB, and occurring at Ascension and/or by Ascension employees. IRB fees do not apply to federally funded studies or studies supported by state, foundation, division or department funds. In cases where the AWI IRB may serve as the IRB of record for a non-Ascension site/Investigator these or similar fees may be changed regardless of funding source.

Study closures are processed as Continuing Reviews.

Fees for modifications are only charged for changes initiated by the Sponsor, not for local changes or updates (e.g., the only change is to study personnel), including Modifications done at the time of Continuing review. The Continuing Review & Modification Combined fee only applies for sponsor initiated modifications.

No fees are charged for reportable events or new information (i.e., unanticipated problems, adverse event (AE) or serious AE, protocol deviation, safety updates).
